

SAFEGUARDING BOARD ISLE OF MAN

Date: 04 July 2019

The Isle of Man Safeguarding Board has a duty to undertake Serious Case Management Reviews and the learning summary placed on our website today 04 July 2019 includes the findings and recommendations from a Serious Case Management Review completed in June 2019.

The review looked at concerns that arose several years ago and identified that practice now is much improved, however, the Safeguarding Board is assuring itself that the improved practice is embedded and addressing the recommendations.

Glenys Johnston OBE

Independent Chair
